**Product Details**

<b>Model Number</b>	DK7-X.250AF-RCLE
<b>Material</b>	Shield: Polycarbonate Attachment System: Plastic Alloy, Aluminum, Steel Inserts/Components Liquid Seal: Rubber
<b>Color</b>	Shield: Clear Attachment System: Black
<b>Shield Coatings</b>	Antifog / Anti-Abrasion
<b>Shield Length</b>	6"
<b>Shield Thickness</b>	0.250"
<b>Product Weight</b>	1.48 lbs.
<b>Specification</b>	NIJ 0104.02
<b>Rail Compatibility</b>	Ops-Core® or Similar
<b>Description</b>	Rail mount tactical face shield designed to fit ballistic combat helmets with Ops-Core® or similar side rail systems.
<b>Competitive Advantage</b>	<ul style="list-style-type: none"> <li>• Shield thickness of 0.250" has a V-50 rating for fragmentation</li> <li>• Shield length of 6" allows for gas mask clearance</li> <li>• Three shield lock positions</li> <li>• Aluminum arms extend shield to provide excellent ventilation &amp; clearance</li> <li>• Extended rubber barrier prevents liquid pass-through and fits over NVG mount</li> <li>• Premium antifog &amp; anti-abrasion coatings</li> <li>• Optically correct lens minimizes distortion &amp; optimizes visibility</li> <li>• Rail mount attachment system requires no tools</li> </ul>
<b>Applications</b>	Police, Sheriff, National Guard, University Police, Riot Squad, Jail, Military, SWAT
<b>Country of Origin</b>	USA
<b>CA Prop. 65 Warning</b>	 Cancer & Reproductive - For more information, go to <a href="http://www.P65Warnings.ca.gov">www.P65Warnings.ca.gov</a>

Product Details	
<b>Model Number</b>	TLSR-F56
<b>Material</b>	Polycarbonate
<b>Color</b>	Reflective Amber
<b>Product Weight</b>	29 g.
<b>Specification</b>	ANSI Z136 ANSI Z87.1 L4
<b>Description</b>	Reflective laser & high intensity light protection shield. Designed to be field mounted without tools to the front of the Paulson DK5 and DK6 face shields.
<b>Visible Light Transmittance</b>	>5%
<b>OD Ratings</b>	>OD3 at 405 nm Violet; >OD4 at 445 nm Blue; >OD2.7 at 510 – 525 nm Green; >OD1.3 at 632 – 660 nm Red.
<b>Hazard Analysis &amp; Training</b>	A Laser Safety Officer (LSO) should review the laser hazard and determine the protection level required. The LSO should review the requirements of ANSI Z136.1.
<b>Competitive Advantage</b>	<ul style="list-style-type: none"> <li>• Dual use shield that protects against laser pointers &amp; handheld lasers, as well as high intensity lights.</li> <li>• Designed to reduce the dazzle effect of red, green, blue, violet and other colors of laser pointers up to a rating of 3R for an exposure time of 1/4<sup>th</sup> of a second.</li> <li>• Reflects 70% of the laser energy back toward the source.</li> <li>• Reduces 95% of high intensity light beams.</li> <li>• Designed to allow a small percentage of laser to pass through the shield, enabling the user to identify the source of the laser while not being harmed.</li> <li>• Protects against both steady and strobe beam high intensity lights.</li> <li>• Attachment system allows for easy removal and cleaning.</li> <li>• Shield provides laser protection directly in user's field of view, while looking below the product allows for clear vision.</li> <li>• Allows the user to maintain situational awareness while facing a high intensity light beam.</li> <li>• Does not cause internal reflection.</li> </ul>
<b>Applications</b>	Police, Sheriff, National Guard, University Police, Riot Squad, Military, SWAT
<b>Country of Origin</b>	USA
<b>CA Prop. 65 Warning</b> 	Reproductive - For more information, go to <a href="http://www.P65Warnings.ca.gov">www.P65Warnings.ca.gov</a>
<b>Comments</b>	Helmet not included. Face shield sold separately.

<b>Lens Coatings</b>	Antifog / Anti-Abrasion
<b>Product Weight</b>	0.42 lbs.
<b>Specification</b>	ANSI Z87.1+
<b>Description</b>	Triple lens tactical goggle with optically corrected lens, nose shield, baffled top and bottom vents, elastic strap, and quick release rear strap buckle.
<b>Competitive Advantage</b>	<ul style="list-style-type: none"> <li>• Designed to meet V-50 impact performance for fragmentation.</li> <li>• Lens coatings provide long life in harsh conditions.</li> <li>• Helmet and night vision compatible.</li> <li>• Optically correct triple lens provides optimal visibility with minimal distortion.</li> <li>• Baffled vents provide ventilation while protecting against chemical splash.</li> </ul>
<b>Applications</b>	Police, Sheriff, National Guard, University Police, Riot Squad, Jail, Military, SWAT
<b>Country of Origin</b>	USA
<b>CA Prop. 65 Warning</b>	Cancer & Reproductive - For more information, go to <a href="http://www.P65Warnings.ca.gov">www.P65Warnings.ca.gov</a> 
<b>Note</b>	Includes mounting clips for PASGT helmets

### Product Details

<b>Model Number</b>	1010-EB
<b>Material</b>	Shell: HDPE Straps: Elastic; Plastic Components Friction Pad: Elastomer
<b>Color</b>	Black
<b>Product Weight</b>	1 lbs.
<b>Specification</b>	ANSI/ISEA 107-2015
<b>Description</b>	Articulated protective knee shield with rigid shell, adjustable elastic straps, and elastomer no-mar friction pad on the front surface. Sold as a pair.
<b>Competitive Advantage</b>	<ul style="list-style-type: none"> <li>• Articulated shell fully protects knee from above and below beyond standard style knee pads.</li> <li>• Hard shell resists penetration from sharp or pointed objects.</li> <li>• Elastomer friction pads add comfort and minimize slipping.</li> </ul>
<b>Applications</b>	Corrections, inmate confrontations and control, riot and crowd control
<b>Country of Origin</b>	USA

Product Details	
<b>Model Number</b>	1010-ET
<b>Material</b>	Shell: HDPE Straps: Elastic; Hook & Loop
<b>Color</b>	Black
<b>Product Weight</b>	1 lbs.
<b>Specification</b>	ANSI/ISEA 107-2015
<b>Description</b>	Articulated protective knee shield with rigid shell, heavy elastic straps, and hook & loop adjustment. Sold as a pair. Designed to be used in the most severe conditions such as cell extraction or direct contact during riot control.
<b>Competitive Advantage</b>	<ul style="list-style-type: none"> <li>• Articulated shell fully protects knee from above and below beyond standard style knee pads.</li> <li>• Hard shell resists penetration from sharp or pointed objects.</li> <li>• Elastomer friction pads add comfort and minimize slipping.</li> </ul>
<b>Applications</b>	Corrections, inmate confrontations and control, riot and crowd control
<b>Country of Origin</b>	USA

<b>Product Details</b>	
<b>Model Number</b>	DK5/6 COV
<b>Material</b>	Nylon Fabric
<b>Color</b>	Black
<b>Product Weight</b>	0.9 lbs.
<b>Description</b>	Protective fabric cover for the DK5 and DK6 series riot face shields (except for wire grid enhanced models)
<b>Competitive Advantage</b>	<ul style="list-style-type: none"> <li>• This cover allows the proper storage of the face shield while it is on or off the helmet.</li> <li>• This cover will ensure that your face shield will be ready for use, clean, and well protected.</li> <li>• Superior protection to alternatives such as helmet bags.</li> </ul>
<b>Applications</b>	Police, Sheriff, National Guard, University Police, Riot Squad, Jail, Military, SWAT
<b>Country of Origin</b>	USA
<b>Export Control Statement</b>	This item is controlled by the U.S. Government and authorized for export only to the country of ultimate destination for use by the ultimate consignee or end-user(s) herein identified. It may not be resold, transferred, or otherwise disposed of, to any other country or to any person other than the authorized ultimate consignee or end-user(s), either in their original form or after being incorporated into other items, without first obtaining approval from the U.S. Government or as otherwise authorized by U.S. law and regulations.
<b>Note</b>	<ul style="list-style-type: none"> <li>• Helmet not included</li> <li>• Face shield sold separately</li> </ul>

### Product Details

<b>Model Number</b>	A-DK5/6-C
<b>Material</b>	Mylar, Adhesive
<b>Color</b>	Clear
<b>Product Weight</b>	0.05 lbs.
<b>Description</b>	Clear disposable self-adhesive cover lens for the DK5 and DK6 series riot face shields. Package of 5.
<b>Competitive Advantage</b>	<ul style="list-style-type: none"> <li>• This cover lens allows for general protection of the lens.</li> <li>• Self-adhesive design maintains a tight seal and eliminates dust and dirt from entering behind the cover lens and is easy to install.</li> <li>• The cover lens is designed to be pulled off if the face shield is splashed with a vision blocking material (mud, paint, etc.), providing a clear view.</li> </ul>
<b>Applications</b>	Police, Sheriff, National Guard, University Police, Riot Squad, Jail, Military, SWAT
<b>Country of Origin</b>	USA
<b>Export Control Statement</b>	This item is controlled by the U.S. Government and authorized for export only to the country of ultimate destination for use by the ultimate consignee or end-user(s) herein identified. <b>Note</b>	<ul style="list-style-type: none"> <li>• Helmet not included</li> <li>• Face shield sold separately</li> </ul>

Product Details	
<b>Model Number</b>	BS-HK
<b>Material</b>	Handle- Plastic Alloy with steel inserts & fasteners, and nylon molded washers Strap- Nylon Fabric
<b>Color</b>	Black
<b>Product Weight</b>	0.88 lbs.
<b>Description</b>	Replacement handle, strap, and all small parts for all models of the riot body shield series. Includes instructions for assembly.
<b>Competitive Advantage</b>	The handle and break away strap are dielectric to prevent electrical pass through and can be reversed for left or right hand use.
<b>Applications</b>	Police, Sheriff, National Guard, University Police, Riot Squad, Jail, Military, SWAT
<b>Country of Origin</b>	USA
<b>Export Control Statement</b>	This item is controlled by the U.S. Government and authorized for export only to the country of ultimate destination for use by the ultimate consignee or end-user(s) herein identified. It may not be resold, transferred, or otherwise disposed of, to any other country or to any person other than the authorized ultimate consignee or end-user(s), either in their original form or after being incorporated into other items, without first obtaining approval from the U.S. Government or as otherwise authorized by U.S. law and regulations.

Product Details	
<b>Model Number</b>	BBSMG
<b>Material</b>	Plastic Alloy
<b>Color</b>	Black
<b>Product Weight</b>	1.05 lbs.
<b>Description</b>	Multi-grip handle for riot body shield. Accommodates right and left handed users. Allows for multiple grip positions.
<b>Competitive Advantage</b>	<ul style="list-style-type: none"> <li>• Handles are dielectric to prevent electrical pass through.</li> <li>• Multi-grip handle allows for multiple types of grip positions depending on the situation and handedness of the user.</li> </ul>
<b>Applications</b>	Police, Sheriff, National Guard, University Police, Riot Squad, Jail, Military, SWAT
<b>Country of Origin</b>	USA
<b>Export Control Statement</b>	This item is controlled by the U.S. Government and authorized for export only to the country of ultimate destination for use by the ultimate consignee or end-user(s) herein identified. ## Plastics Used in Paulson Products

<b>ABS</b>	<i>Acrylonitrile Butadiene Styrene</i> is a common general-purpose plastic.
<b>Acetate</b>	<i>Cellulose Acetate</i> is a plastic that is available in polished optical sheet. Products made from this material should not be used for extremely low or high temperature applications.
<b>HDPE</b>	<i>High Density Polyethylene</i> is a material used in opaque general-purpose components.
<b>Nylon</b>	Characterized by toughness, optical quality, and resistance to severe heat.
<b>PETG</b>	<i>Polyethylene Terephthalate Glycol</i> is typically used for packaging applications such as blister packs and bottles.
<b>Polycarbonate</b>	Commonly referred to as <i>Lexan</i> <sup>®</sup> ; characterized by toughness, heat resistance, and optical quality.
<b>Propionate</b>	<i>Cellulose Propionate</i> is a plastic used for injection molded optical face shields used for high performance applications.
<b>Tritan</b>	Characterized by excellent resistance to a wide variety of chemicals.

## Product Terminology

<b>Antifog</b>	A coating on a face shield that prevents fogging or misting in a wide range of temperatures and conditions.
<b>Bump Cap</b>	A lightweight cap that does not meet the test requirements of a hard cap or hardhat.
<b>Calorie</b>	A unit of measuring energy or heat.
<b>Cam-Lock</b>	The fastener on the cap/hat bracket or headgear that attaches to the face shield.
<b>Cap Bracket</b>	A device that allows the mounting of a face shield to a hard cap.

<b>Chin Protector</b>	The portion of a face shield that offers protection to the wearer's chin, lower face, and neck.
<b>Cobalt Blue</b>	A blue tint for face shields and goggles that reduces bright yellow/orange (sodium line) of the visible light spectrum typical of gas welding applications and furnace operations.
<b>Cover Lens</b>	A disposable pane of clear material to protect face shields and goggle lenses from damage.
<b>Cover Plate</b>	The outer disposable cover lens for a welding helmet or goggle.
<b>Dark Green</b>	ANSI Z87.1 defines dark green as a face shield color transmitting visible light at 14%, $\pm 4\%$ .
<b>Die Cut</b>	A fabrication process that cuts parts from sheets of plastic or other materials.
<b>Dielectric</b>	A nonconductor of electrical current.
<b>Face Shield</b>	A protective device commonly intended to shield the wearer's face, or portions thereof, in addition to the eyes, from certain hazards. Face shields are secondary protectors and should be used only with primary eye protection.
<b>Face Shield Kit</b>	A face shield used in combination with headgear or mounting device.
<b>Flat</b>	Refers to the shape of the face shield. A flat face shield must wrap around the spark guard and will not provide the fit of a formed face shield.
<b>Formed</b>	Refers to the shape of the face shield. A formed face shield conforms to the shape of the spark guard or other attachments, and is considered superior in fit, feel, and function to flat face shields.
<b>Hard Cap</b>	A safety helmet that has a front brim.
<b>Hardhat</b>	A safety helmet that has a brim that extends around the helmet.
<b>Hat Bracket</b>	A device that allows the mounting of a face shield to a hardhat.

<b>Injection Molded</b>	The method of forming objects from granular or powdered plastics in which the materials are fed from a hopper to a heated chamber in which it is softened, after which a ram or screw forces the material into a mold. Pressure is maintained until the mass has hardened sufficiently for removal from the mold. Paulson injection molded shields feature improved optical & physical characteristics, while the formed shape also improves comfort & safety.
<b>Metalized</b>	A coating on the front of a face shield that is designed to reflect UV, IR, and reduce visible light.
<b>Nanoparticles</b>	Inorganic material particles between 1 and 100 nanometers (nm) in size with a surrounding interfacial layer. Their application in Paulson shields allows the use of higher quality polycarbonate material, resulting in higher impact value, as well as slower degradation rate and compatibility with higher quality protective coatings, all of which extend the service life of the product.
<b>Not Warranted Shatterproof</b>	A warning statement that applies to all face and eye protection devices. The statement notes this potential for any face and eye protection.
<b>Primary Protection</b>	A device such as safety spectacles or goggles which may be worn alone or in conjunction with a secondary protector.
<b>QuickView</b>	Paulson's line of flip-front face shields that feature a full-coverage clear face shield with a 4" or 6" flip-front shield available in shades 3-9, shade 5 cobalt blue, and gold-coated.
<b>Safety/Cover Plate</b>	A lens that can be used interchangeably as a cover plate and/or safety plate in welding applications.
<b>Secondary Protection</b>	A device worn only in conjunction with a primary protector. Face shields are classified as secondary protectors.
<b>Shade 5</b>	ANSI Z87.1 defines shade 5 as a face shield color that meets specific UV, IR, and visible light requirements. The visible light requirement is a maximum of 3.16% and minimum of 1.18%.
<b>Spark Guard</b>	The portion of a headgear that protects the wearer's forehead. Also known as a crown protector.

## National Safety Standards Met by Paulson Products

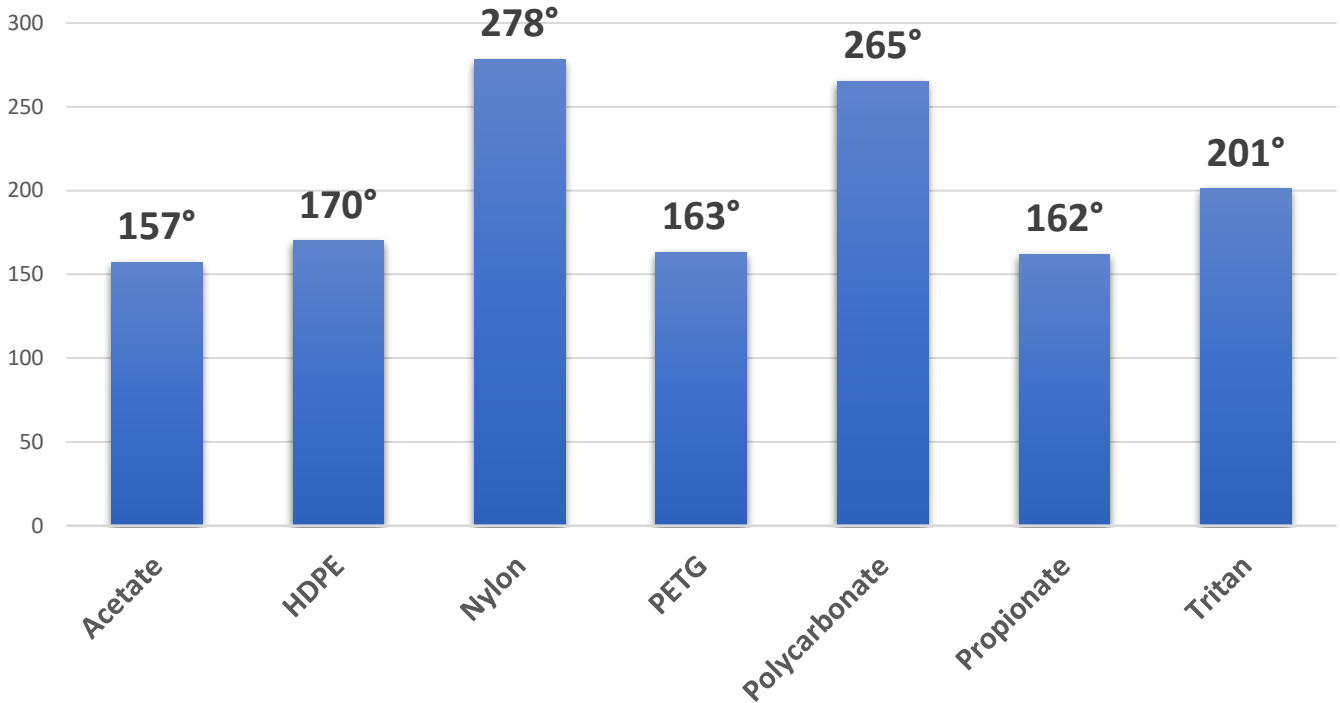

STANDARD	DEFINITION	GOVERNING BODY
<b>ANSI Z87.1</b>	Provides minimum requirements for eye and face protective devices in the workplace, including selection, use and maintenance of the devices.	American National Standards Institute
<b>ANSI Z87.1+</b>	Provides minimum requirements for high velocity impact eye and face protective devices in the workplace, including selection, use and maintenance of the devices.	American National Standards Institute
<b>ANSI Z87.1+S</b>	Provides minimum requirements for high velocity impact specialty eye and face protective devices in the workplace, including selection, use and maintenance of the devices.	American National Standards Institute
<b>ASTM F2178</b>	Standard test method for determining the arc rating and standard specification for eye or face protective products.	American Society for Testing & Materials
<b>NFPA 70E</b>	The standard for electrical safety in the workplace.	National Fire Protection Association
<b>NFPA 1951</b>	The standard on protective ensembles for technical rescue Incidents.	National Fire Protection Association
<b>NFPA 1971</b>	Protects firefighting personnel by establishing minimum levels of protection from thermal, physical, environmental, and blood borne pathogen hazards encountered during structural and proximity firefighting operations.	National Fire Protection Association
<b>NFPA 1977</b>	The standard on protective clothing and equipment for wildland firefighting.	National Fire Protection Association
<b>NIJ 0104.02</b>	The standard that establishes requirements and methods of test for helmets and face shields to be worn by law enforcement officers during civil disturbances, riots, or other situations that pose a threat of injury from blows to the head	National Institute of Justice
